

SPACE GUARDIANS

A project for children, teachers, parents and for all that hold an interest in Astronomy education

Did you know that the Moon was stolen??

This is how our first story starts... And two more stories are being written by the **SPACE GUARDIANS** team.

The project's main goal is to create an interactive learning eBook for the Astronomy education of pre-school children (3 to 6 years old) - **SPACE GUARDIANS** eBook - that will be made freely available Europe wide.

The **SPACE GUARDIANS** eBook asks the reader to solve the mystery of the stolen Moon. But not everything is what it appears to be... This mystery story will mainly explore topics like the MOON, Earth and Sun. placing the reader at the center of the plot, by enabling him/her to choose the name of the main character.

Ready for this space challenge? Follow us to take part in the **SPACE GUARDIANS** story!

EUROPEAN EVENTS ON ASTRONOMY EDUCATION

The Space Guardians team is present at the Fête de la Science (Science Festival), from 6 to 14 October 2018. The festival is taking place in the 11 regions of France with different activities that targets educators, children and researchers.

Visit the webpage [here](#) and have access to podcasts, interviews, articles and further information about the results from this European Festival.

European Researchers' Night 2018

The Night aims to bring researchers closer to the general public

The European Researchers' Night took place on the 28 and 29 September across Europe and beyond. Every year this is a great opportunity for researchers to interact with visitors, especially young people, and show how their research has an impact on people's daily lives.

Check [here](#) the Map of Europe that pinpoints the events and its main results in each country.

Follow the SPACE GUARDIANS activities & news to make part of this space mission on Astronomy education!
